

NEW HOSPITAL DEVELOPMENT IN BEXHILL

Development Overview – CGI by Gilling Dodd Architects

This is the latest update on our plans to build a new 54 bed mental health hospital

As you will have seen, we have started the enabling works on the site.

This has, so far, included:

- installing temporary drains to protect the watercourse running through the land
- stripping the topsoil which is necessary to reach soil that will stand compaction and weight bearing.

Timetable:

August 2023

Re-landscaping to make the site suitable for the new building and carry out temporary works for drainage and welfare (site staff facilities)

September 2023

Install temporary bridges to make it easier to get across the site, as well as starting foundations

Other matters

- We have discovered that the water main nearest to the site needs to be diverted to accommodate our enabling works. We are liaising with South East Water to resolve this issue.
- We continue to liaise with Rother District Council to make sure we fulfil all planning obligations so we are able to start permanent work later in the year.

Our partners

The company providing the skilled operatives and machinery to carry out the ground works is Chartway Civil Engineering -

www.chartwaycivilengineering.co.uk

Community support

We have started to contact local Colleges to arrange for work placements and apprenticeships for students with an interest in civil engineering or construction in general.

Next Update in September

Site operations hours:

08.00am to 6pm.

Kier project office

A container will be on site where our Site Manager will be located.

Kier local office

Platinum House, Sussex Manor Business Park, Gatwick Road, Crawley, RH10 9NH
